# About the Chapter

**A driving force for enhanced energy resilience.**

- AEE Trinidad and Tobago Chapter (“AEETT”) is a non-profit action hub for stakeholders of the energy sector in Trinidad and Tobago interested in enhancing their knowledge base, business network and career.
- AEETT is governed by professionals with strong backgrounds and interests in energy engineering and energy management, energy efficiency, renewable and alternative energy, power generation, energy services, environmental compliance, sustainability, law, policy and other related areas.
- We provide global professional development opportunities and the opportunity to become immersed in a strong, sustainable network of energy professionals who share data, best practices and industrial experiences to create a more resilient energy sector, so equipped undertake the inevitable energy transition.
- AEETT provides mentorship and internship opportunities for its members who desire to peruse careers in the energy and environmental field.
- We desire to establish a forum represented by strong stakeholders to drive the positive change in legislative and policy arena in the local energy industry.
- AEETT’s membership comprises of professionals with strong interests in energy engineering and energy management, energy efficiency, renewable and alternative energy, power generation, energy services, environmental compliance, sustainability, law and other related areas.

*Finance Manager*

# Governance

- AEETT is governed by a Board of Directors. The Board is composed of Officers and Directors of Sub-Committees in specialist areas. Officers include the President, Vice-President, Treasurer and Secretary.
- The directors are responsible for leading committees and other tasks delegated by the Board.
- All Board Members are full members in good standing with AEE Global and the Local Chapter. Board Members are elected each year at the Annual General Meeting for a term of one year.
- The AEE TT and its Board operates under its governing bylaws.

## CORE VALUES

1. Professionalism
2. Responsiveness
3. Integrity
4. Mutual Respect
5. Sustainability

# VISION

## VISION

- To aid in the transformation of T&T into an engine for sustainability, responsibility, safety, financial strength, integrity, democracy, employee and member satisfaction, conservation, renewable energy, education and communication while maintaining reliable electrical service.
- A chapter of value to Trinidad and Tobago and its energy sector, focused on the training and certification of professionals and students alike.
- An energy champion building and maintaining strategic collaboration relationships within the energy circles.

# AEETT Objectives

1

Create awareness among various stakeholders in the energy industry about energy efficiency and energy management methodologies / best practices through public sensitization sessions.

2

To promote the scientific and educational interests of those engaged in the energy industry.

3

To create a platform for sharing and exchanging of knowledge among stakeholders in the energy and energy services industry

4

To collaborate with reputable national, regional and international organizations engaged in the energy industry/sector.

5

To strengthen the capacity of the members of the Chapter.

6

To build technical capacity and continuously strive to learn and raise industry standards.

7

To showcase and highlight local success stories and role models to foster and drive innovation.

8

To promote the best energy practices being followed globally and its implementation in collaboration with national stakeholders for achieving Trinidad and Tobago's national energy goals.

# ➤ List of Certifications offered by AEE

# Certification Benefits of AEE

- **DEVELOP CAPABILITY**

- Entering into a certification program helps expand fundamental knowledge and develop subject matter expertise. As an employer, investing in your employees helps maintain staff, reduce turnover, and build future capabilities.

- **CREATE CUSTOMER AFFINITY**

- AEE Certified professionals are recognized and trusted for their unbiased approach, high level of competence, and commitment to quality standards and industry best practices. Demonstrating this to your customers will increase loyalty

- **MAINTAIN A COMPETITIVE EDGE**

- Being recognized as a subject matter expert In a competitive marketplace opens doors of opportunity. Many companies require AEE certifications for employment and they are often a project requirement or included as an integral part of an RFP. Ensure you and your organization have the opportunity to compete.

- **PLAN FOR POST PANDEMIC**

- Building and facility management must adapt to account for the new 'norm' of occupancy and safety. It's the engineers who manage energy and maintain building systems that will lead this change and implement improvements across the industry.

# Our Value Proposition

We are expanding a global network of 18,000 skilled professionals.

## BENEFITS

- Member Discounts on Training
- Technical Webinars
- Be part of a global community of energy experts.
- Discounts on seminars and conferences (for recertification units)

**Why  
join  
TTAEE?**

## ADD-ONS

- Ability to take AEE certifications in Trinidad
- Take part in renewable energy installations (solar and wind)
- Learn new tools and software to advance your career.

???				

# RECENT ACTIVITY

## **TTAEE increasing electrification in rural areas.**

In December 2021, Board members of the TTAEE in partnership with LABIDCO and RESSCOTT LTD aided in bringing a Solar PV energy solution to a family of 10 persons who have been living without electrical power for over a decade.

## **Our commitment to Clean Energy**

We are in 100% support of any clean, energy efficient initiative. Our goals is to involve member of the TTAEE on the renewable energy installations that take place throughout the year by leveraging our relationships with companies that have a strong foundation involve in the sector.

## **2022 Projection**

TTAEE members will be granted the opportunity to get hands on experience in a projected 3 to 6 of these solar energy installations this year. TTAEE will continue to support and create charitable efforts in Trinidad and Tobago.
